

MISSION STATEMENT OF THE SCHOOL OF ST. JUDE

We, the family of Saint Jude School, dedicate our community to the spiritual growth, academic excellence, social development and moral endowment of our children, in striving to provide developmentally appropriate Pre-Kindergarten through Grade Eight Programs and practices, we seek to educate our students spiritually, physically, intellectually, emotionally, socially and aesthetically.

We seek to inculcate our children with an understanding of free will as a gift from God and the responsibility to choice as they confront important life decisions.

We indentify ourselves as a part of a larger community and strive to bring our students to an understanding of leadership in a global society.

We affirm our commitment to extend our Catholic teaching and beliefs into practice. It is our aim to enable our students to make their faith living and active through their thoughts, words, and actions.

We endeavor to create life long learners who seek to develop to their fullest potentials academically as well as socially.

We respect the right of each individual to be treated with dignity regardless of faith commitment, cultural traditions, or gender differences.

As our children prepare to inherit an ever-changing world, we believe that it is vital to provide an educational opportunity that is equitable, excellent, and leads to personal fulfillment.
